

Coronavirus / Covid-19 19/3/2020

At this point in the current outbreak of coronavirus illness, I am still seeing patients at the clinic, but am also willing and able to do consultations by phone or on Skype, if preferred.

I do, of course, have hand washing facilities and hand gel and alcohol wipes available and am currently in excellent health. The situation is subject to change and I will update this notice if and when it does.

Please do not come to the clinic if you have cough, fever or other relevant symptoms. Phone me as soon as possible and we can discuss how best to proceed.
